

## Enclore Top Hinged Lockable Board

Display information safely in high traffic areas using this lockable option with vertical opening

### DESCRIPTION

Enclore Lockable Board was designed for corridors and high traffic areas. The door opens vertically, which is excellent to prevent injuries to distracted people bumping against it during display updates. The space between the glass and the surface is enough to use regular magnets. With the lacquered steel surface, the users can use magnets, but it is also writable. The cork surface is self-healing and resilient making it an excellent display material, as no marks are visible on the surface when the pushpins are removed.

The product comes with 2 keys, so that a spare key is kept in a safe location, in case one is lost.

LOCKABLE

VERTICAL  
OPENING

READY FOR  
WALL MOUNT
